

Health and Safety Management

H&S Management System Briefing - May 2019

- **Why?** H&S Introduction
 - » Andy Cook – H&S 101
- **How?** Hawaiki H&S Management System
 - » Graham Bruce – Quality Program Director

Preliminaries

- Pay attention – this concerns you!
- Ask questions
- Adopt a H&S attitude

Your colleagues will thank you

HAWAIIKI

Health and Safety Introduction

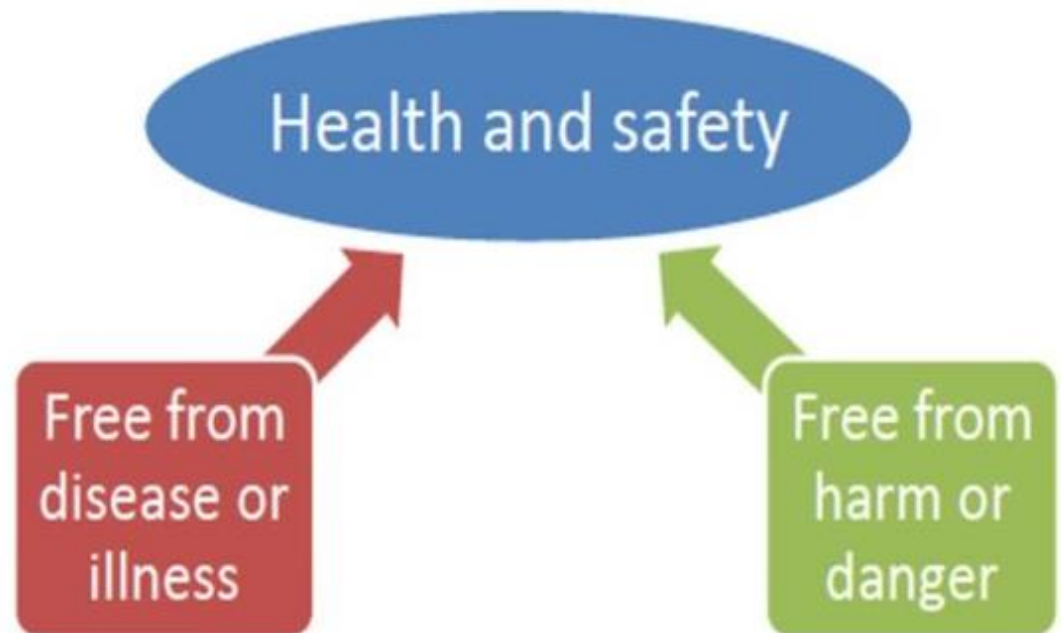

making the complicated, practical

Background to health and safety

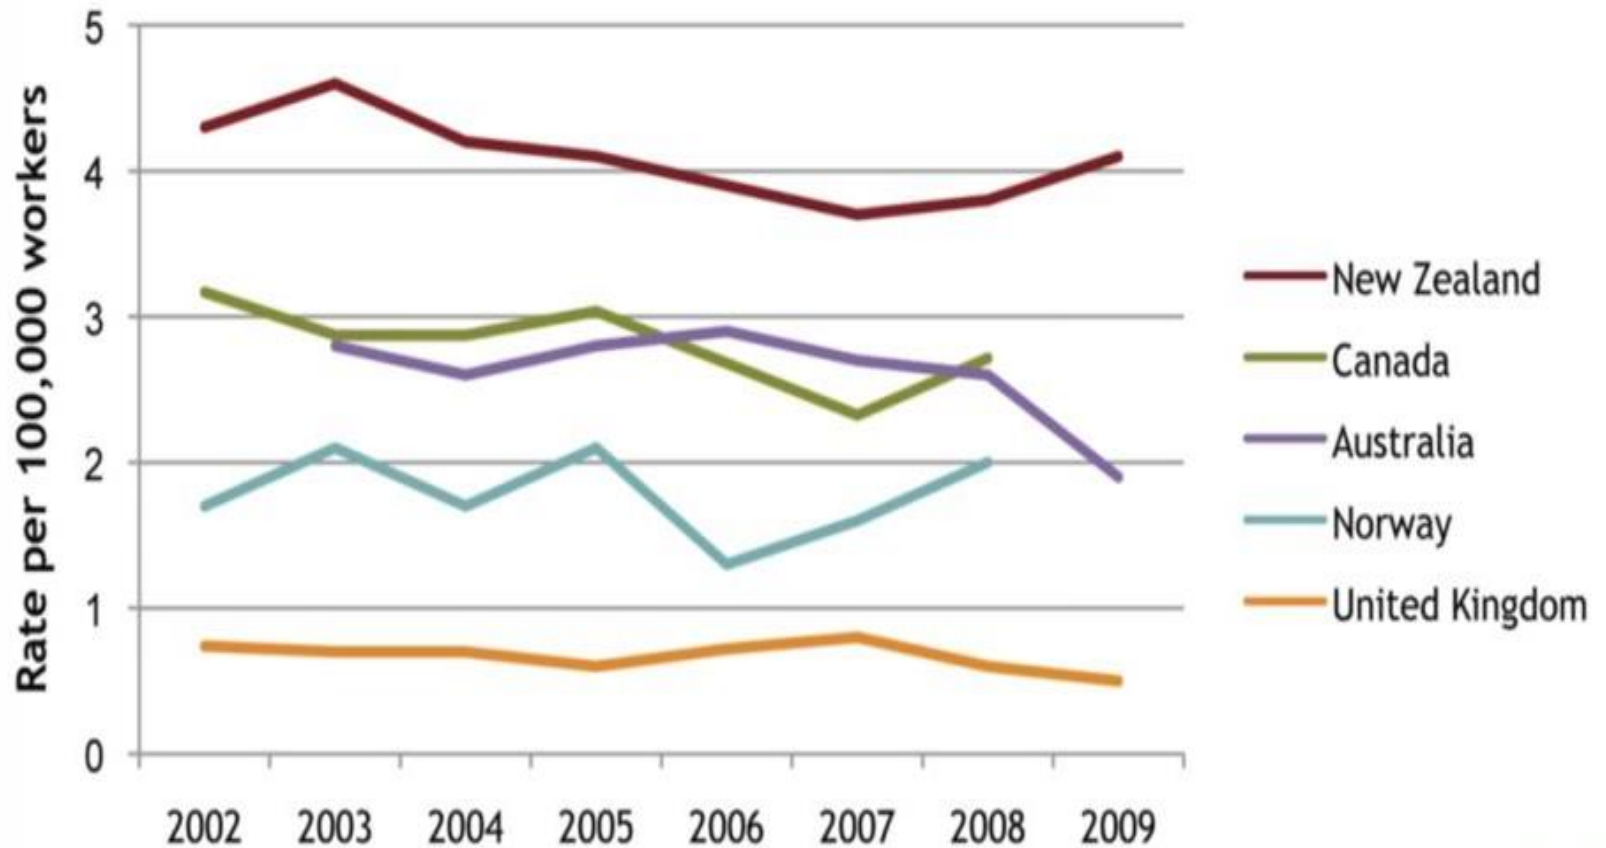

**HEALTH & SAFETY
AT WORK ACT**

How does new Zealand differ from other countries?

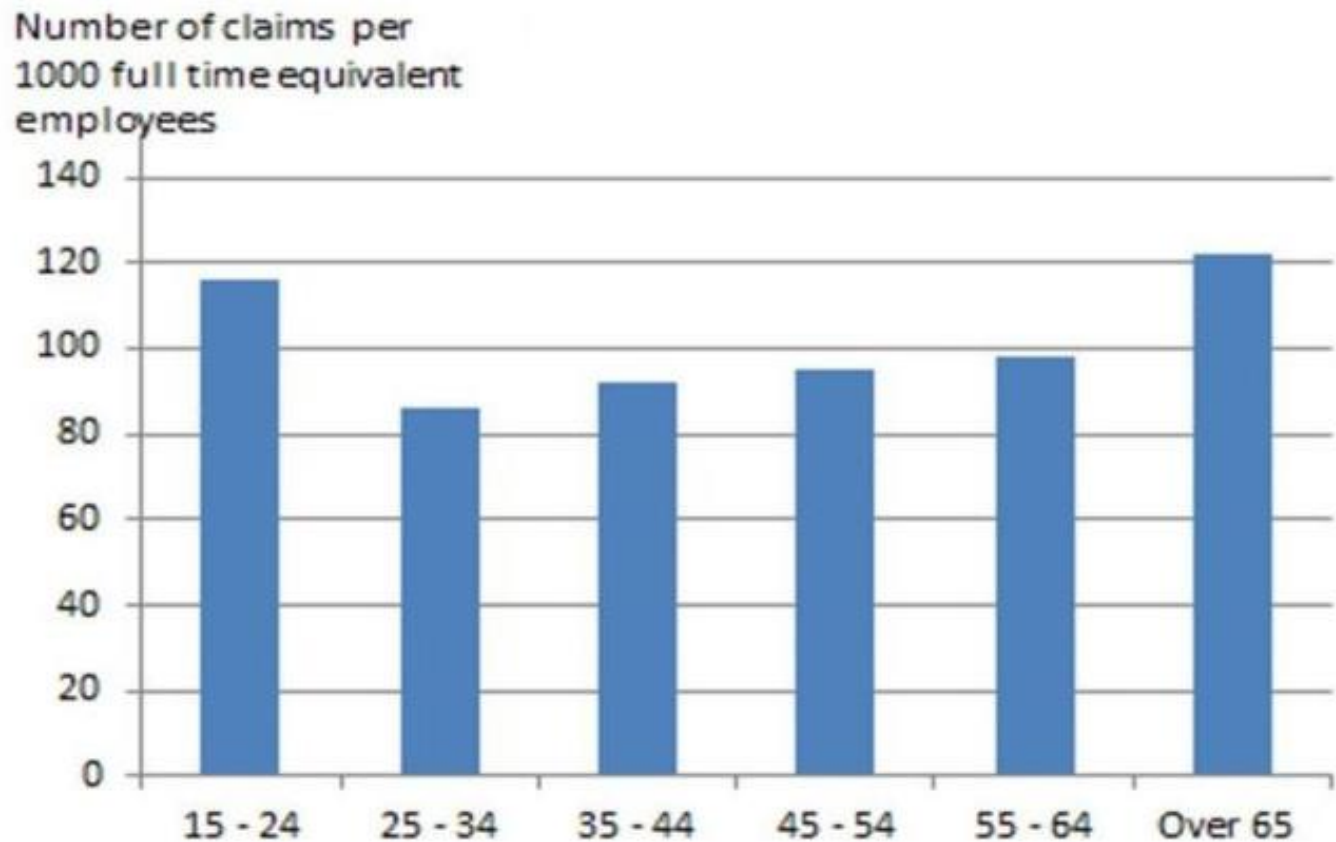

PROBLEM DEFINITION

68%	of all workplace injury claims are from medium-large businesses
100 BUSINESSES	accounted for 20% of severe injuries and fatalities in 2014/2015
600-900	deaths per year from work-related disease
73 DEATHS	per year from work-related injury
220,000	work related accidents result in ACC claims each year
30,000	new cases of serious ill health each year
17,000 - 20,000	new cases of work related disease
3.5 BILLION	workplace deaths and major accidents cost NZ \$3.5b each year

Work injury claims by age group

HAWAII

Why Change? What's the problem?

The Royal Commission and the Independent Taskforce identified systemic failures:

- Confusing legislation which was poorly implemented
- An ineffective regulator
- Inadequate leadership
- Poor worker engagement and participation
- Workforce shortcomings- both capacity and capability
- Hidden occupational health
- A risk tolerant culture

HSWA is a new way of thinking

- Ensures **everyone** has a role to play
- Makes everyone's **responsibilities** clear
- Focuses on **risk management**
- Requires those who create the risk to **control the risk**
- Requirement to **engage with workers and enable them to participate in an ongoing basis**
- **Allows flexibility** in managing health and safety risks

HAWAII

HSWA

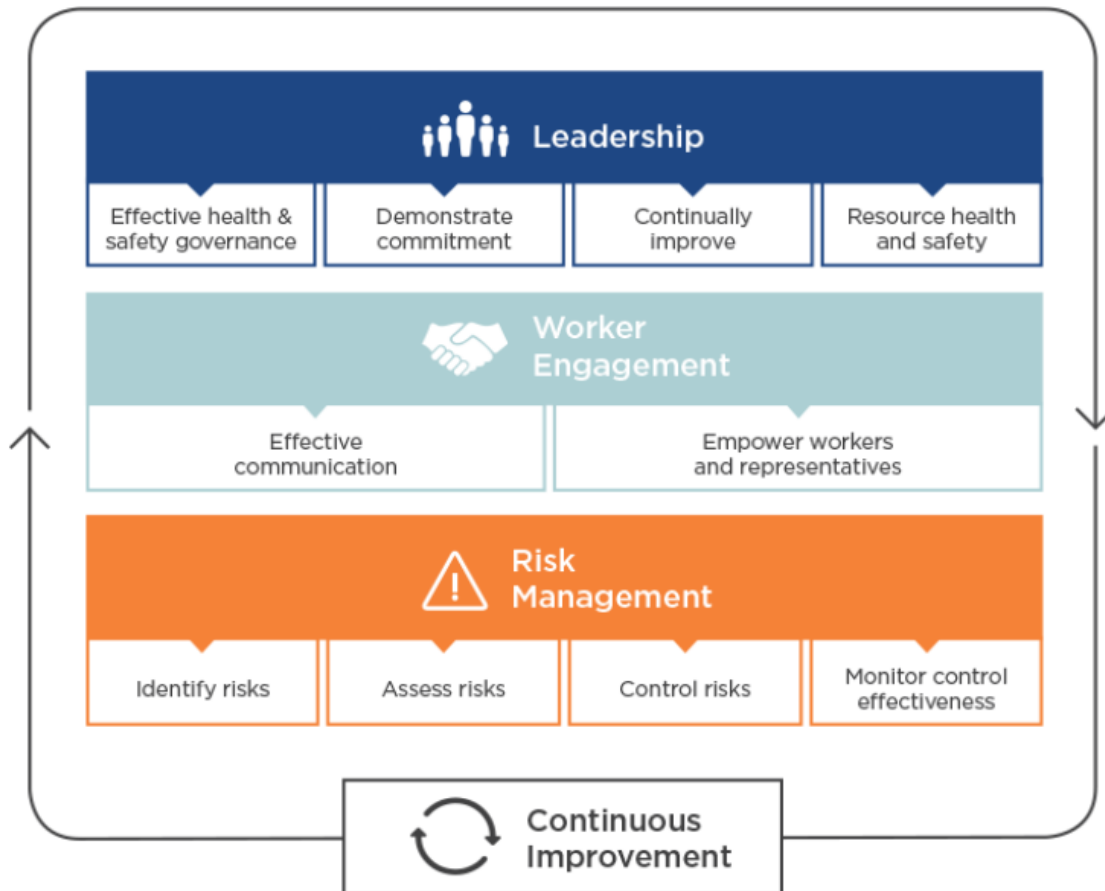

Everyone who
goes to work
should come
home healthy
and safe.

The Role Of The Regulator – WorkSafe NZ

WorkSafe works closely with PCBUs, workers and others to:

- **Educate** them about their workplace health and safety responsibilities.
- **Engage** them in making changes that reduce the chances of harm.
- **Enforce** workplace health and safety legislation.

PERFORMANCE REQUIREMENTS

ASSESSMENT FOCUS

People	
Resources	
Behaviours	
Systems	
Practices	
Attitudes	
Culture	
Perceptions	

Everyone has a role to play

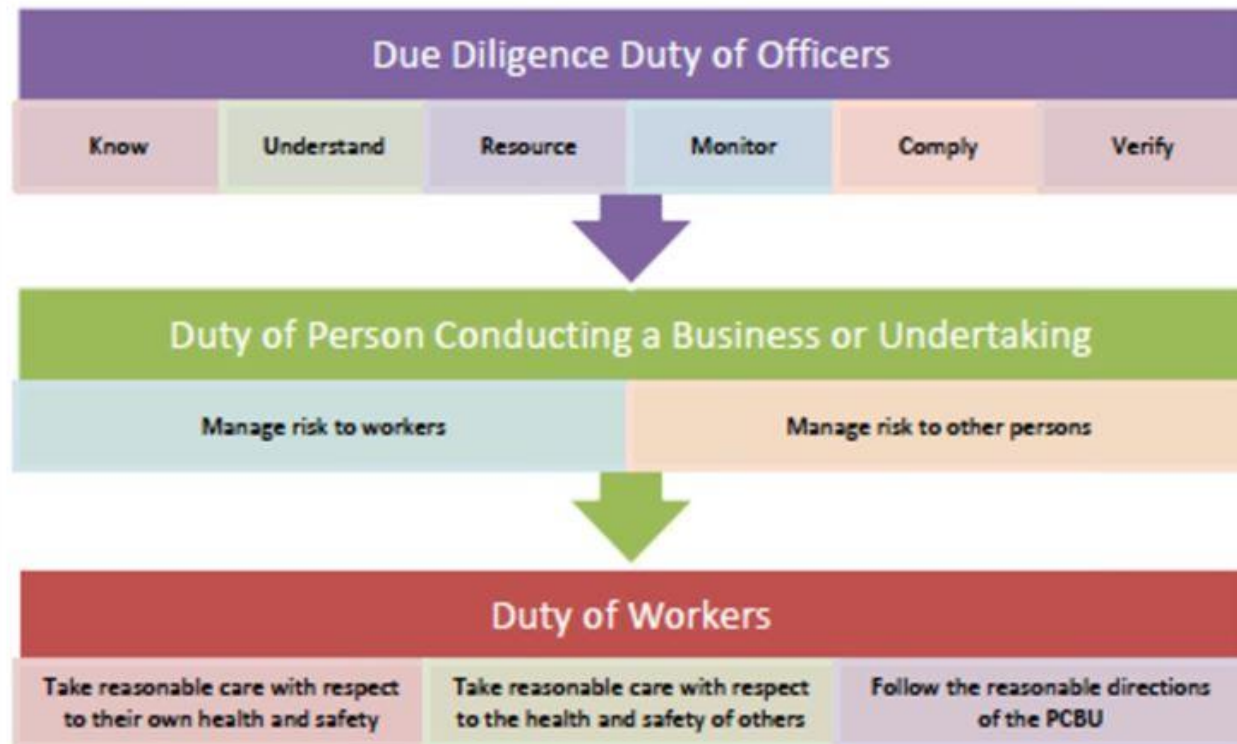

Motivation for Business

- To ensure people go home uninjured and healthy tonight. (Zero Harm!)
- Legislative Requirements. (Potential Fines)
- Reduction in ACC premiums and other costs.
- Brand or reputation damage.
- Actively being seen as a good employer.
- Overseas corporate reporting requirements

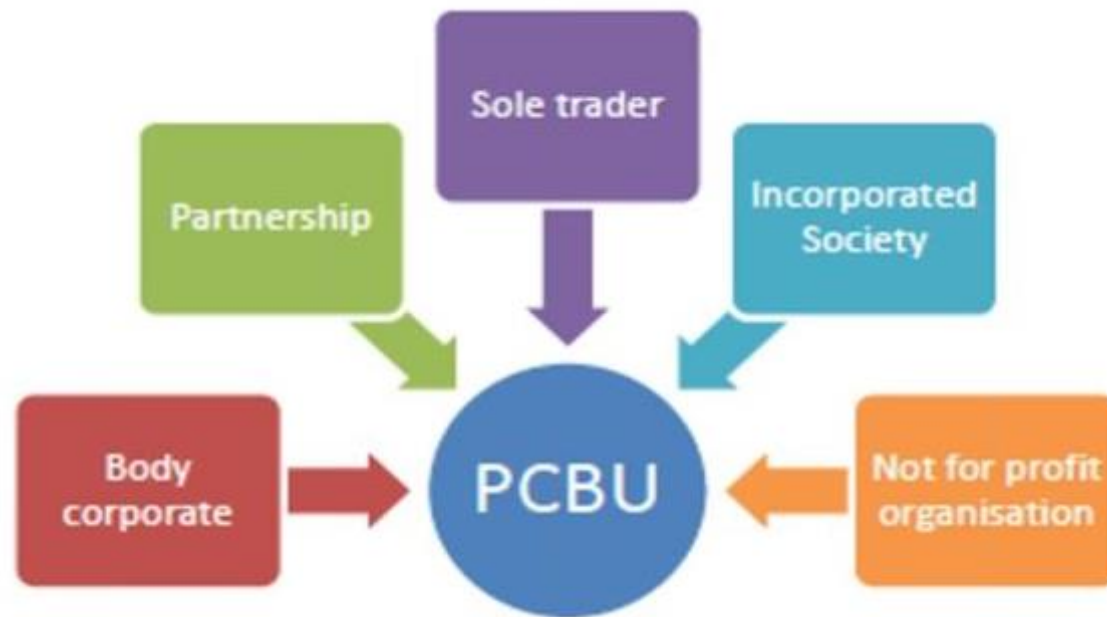

Officer

The Duty Holders

PCBU

Duty to Notify

Section 56:

Duty to notify notifiable event

A PCBU must, as soon as possible after becoming aware that a notifiable event arising out of the conduct of the business or undertaking has occurred, ensure that the regulator is notified of the event.

“By the fastest means”

Meaning of notifiable event

a notifiable event means any of the following events that arise from work:

- (a) the death of a person; or
- (b) a notifiable injury or illness; or
- (c) a notifiable incident.

A Culture of Safety

Motivation for Workers

Like all cultures, H&S culture derives from some core principles:

- People are important,
- People are valued,
- We look out for each other.

HAWAII

Engagement, Participation and Representation

Employee Rights

A worker may cease, or refuse to carry out, work if the worker believes that carrying out the work would expose the worker, or any other person, to a serious risk to the worker's or other person's health or safety arising from an immediate or imminent exposure to a hazard. (Section 83)

HAWAIIKI

**Looking after your work
colleagues**

How many of us will walk past
a dangerous activity like this
and take no action?

Your Attitude to Safety

- Look after your colleagues and yourself.
- Actively participate in and contribute to a culture of Health and Safety at work and at home.
- Take every opportunity to learn about Health and Safety, understand the legislation and apply common sense to everything you do.

H&S Management System

The Health and Safety Management System (HSMS) is a set of policies, procedures and associated forms / templates that **describe and direct** health and safety management within Hawaiiki.

H&S Management System

- The objective of the HSMS is twofold;
 - i. To satisfy regulatory requirements,
 - ii. To create safer working environments.

H&S Management System responsibilities

- Accountability – All Hawaiki employees
- Ownership – Chief Network Officer
- Administration – H&S Committee
- Implementation – Departmental Managers

- The Hawaiki HSMS is divided into the following elements....
 1. Employer Leadership Commitment
 2. H&S Planning
 3. Hazard Identification and Risk Management
 4. Competence and Awareness
 5. Incident and Corrective Action
 6. Consultation, Participation & Communication
 7. Emergency Preparation and Response
 8. Contractor Management

- Key documents from HSMS Element 1

1. Employer Leadership Commitment

HS-1 OHS Policy

HS-1.1 Responsibilities

HS-1.3 Right to Refuse Unsafe Work

- Key documents from HSMS Element 3
 - 3. Hazard Identification and Risk Management
 - HS-3.0 Hazard and Risk Management
 - HS-3.0.1 Risk and Hazard Reporting Form

- Key documents from HSMS Element 3

3. Hazard Identification and Risk Management

HS-3.3.1 Permit to Work

HS-3.3.3 Work at Height

HS-3.3.4 Hot Work

HS-3.3.7 Confined Spaces

HS-3.3.10 Cranage

HS-3.3.11 Excavation

- Key documents from HSMS Element 3

3. Hazard Identification and Risk Management

HS-3.5 Hazardous Substances

HS-3.6 Electricity

HS-3.8 Lasers

- Key documents from each HSMS Element 3, particularly relevant to the individual

HS-3.1 Personal Protective Equipment

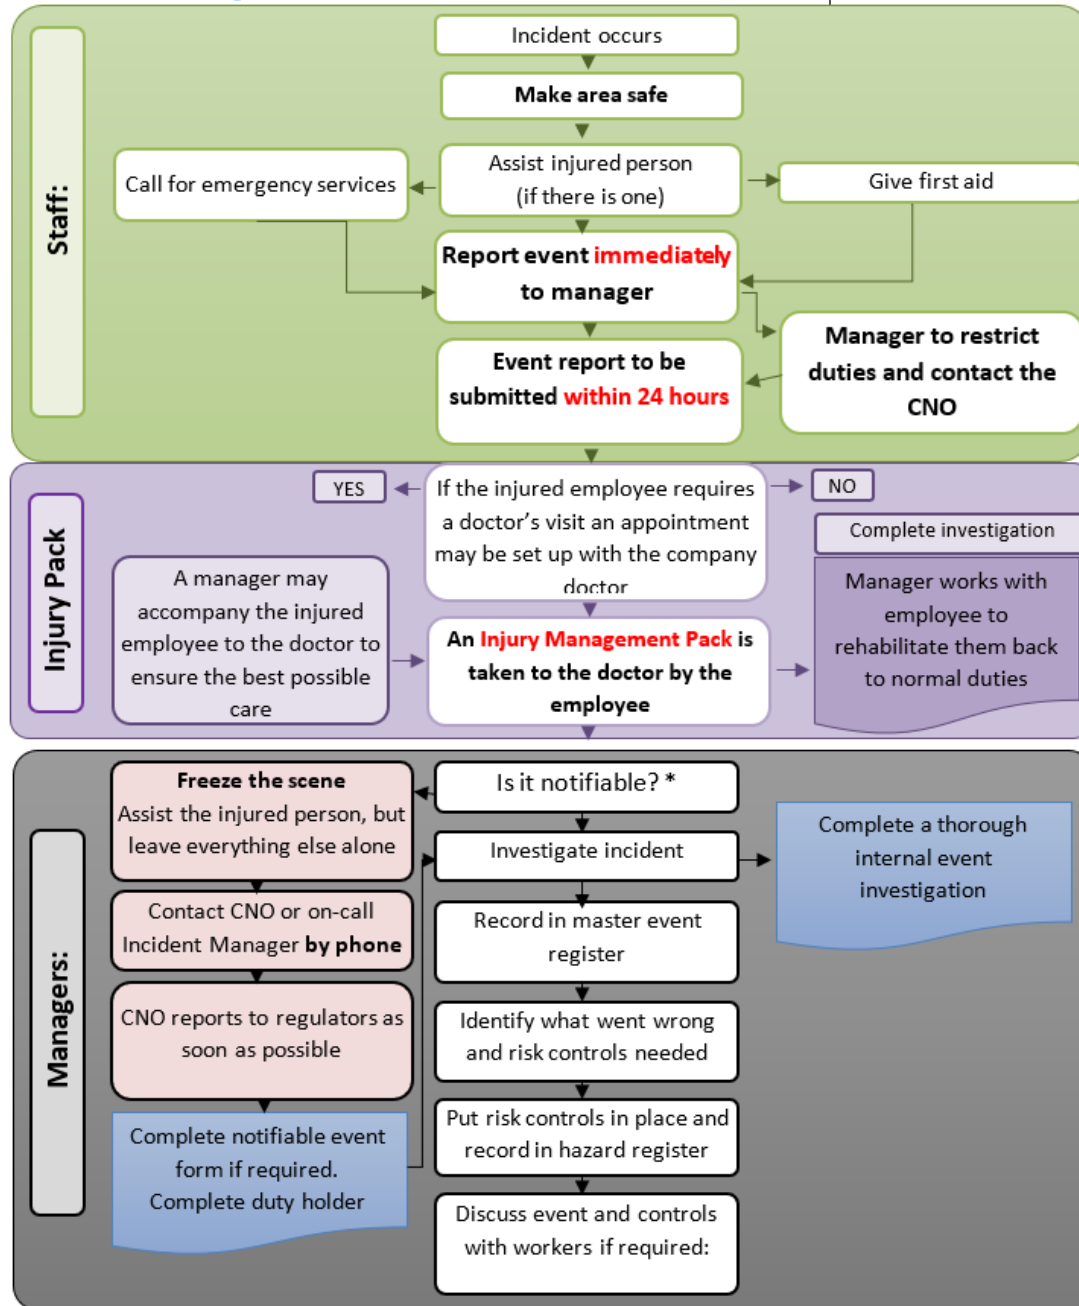

HS-3.2.1 Job Safety Analysis

HS-3.4 Drug and Alcohol Policy

HS-3.9 Lone Worker

HS-3.10 Ergonomics

What is the process we follow after an incident?

HAWAIIKI

- Element 5 key documents – Incidents & CA

HS-5.0 Incident Reporting and Investigation

HS-5.2 Incident Reporting and Investigation form

- Key documents from other HSMS Elements
 - HS-6 Consultation, Participation & Communication
 - HS-7 Emergency Preparation and Response
 - HS-8 Contractor Management
- Note that Elements 2 (Planning) and 4 (Competence) support the operation of the management system but do not typically affect day-to-day operations.

- What is required from you....
 - Familiarise yourself with at least the key documents listed in this presentation.
 - Sign-off that you have reviewed and understand your responsibilities as described.
 - Demonstrate H&S mindfulness every day.
