RESIDENCY VISA HOLDER

PROFESSIONAL SUMMARY

A dynamic **full-stack developer** with over a **decade** of experience and a proven track record of delivering robust and scalable software solutions. Proficient in **PHP** and **JavaScript**, with deep expertise in web application development using **React** and **Node.js**. Highly skilled in database design and API development. Known for consistently optimizing code for performance and security, resulting in improved user experiences and reduced operational costs. Additionally, I am familiar with serverless infrastructure. Seeking a challenging developer/lead role to drive innovation and significantly impact groundbreaking projects.

TECHNICAL SKILLS

- **Programming language:** HTML, CSS, JAVASCRIPT (including jQuery), PHP, JSTL, JSP, Java, Node, REACT, Python, Typescript, Dart
- **Web Servers:** Apache, Linux (utilized docker for containerization)
- **Database:** MYSQL, ORACLE, POSTGRESQL, SQL
- **Content Management System:** WordPress, Moodle
- **API Platform:** POSTMAN
- **Version Control:** GIT, SVN
- **Framework:** Expression Engine, Django, Bootstrap
- **Mobile Development Framework:** Flutter

PROFESSIONAL EXPERIENCE

University of Texas Health Science Center - Software Developer
San Antonio, TX, USA

Nov 2017 – Nov 2023

- Architected and developed highly scalable web applications using REACT and NODE JS, resulting in improved performance and user experience.
- Designed and implemented robust backend systems with NODE JS, integrating with POSTGRES SQL databases for efficient management and retrieval.
- Introduced best practices and streamlined development processes using Java and JSP technologies, resulting in increased team efficiency and faster project delivery.
- Designed and implemented responsive HTML/CSS layouts, utilizing frameworks like Bootstrap, to create visually appealing and user-friendly interfaces across various devices and screen sizes.
- Provided mentorship and guidance to junior developers, facilitating their growth and development within the team.
- Collaborated closely with cross-functional teams to deliver complex projects on time and within budget, leveraging strong communication and problem-solving skills.

- Exceeded performance metrics and project goals, consistently delivering high-quality solutions that met or exceeded client expectations.

Giles Parscale - Web Developer

San Antonio, TX, USA

Feb 2017 – July 2017

- Developed custom expression engine modules to meet specific client requirements, increasing functionality and user management on websites by integrating complex features seamlessly.
- Designed and implemented custom WordPress themes from concept to completion, incorporating responsive design principles to enhance user experience across devices and screen sizes.
- Implemented robust security measures, including input validations, data sanitization, and user authentication mechanism, to protect against common vulnerabilities such as SQL injection and cross-site scripting attacks
- Consistently received positive feedback from clients for delivering high-quality, custom solutions that met their specific business needs and exceeded expectations regarding functionality, performance, and design.

Mindlabs Systems – Web developer

Kakkanad, India

Aug 2009 – Feb 2014

- Designed and developed custom PHP applications tailored to client specifications, delivering solutions that streamlined business processes and increased operational efficiency.
- Successfully integrated third-party RESTful APIs into PHP applications and WordPress websites, enabling seamless data exchange and enhancing product functionality, such as integrating payment gateways or social media platforms
- Developed and customized WordPress plugins to extend functionality and meet specific client requirements, enhancing website capabilities and user engagement.
- Ensured cross-browser compatibility by testing and debugging HTML/CSS code across multiple browsers and devices, delivering consistent user experiences and minimizing compatibility issues.

Reubro International - Web Developer

Kakkanad, India

July 2008- August 2009

- Implemented front-end interactivity and dynamic functionality using JavaScript and AJAX, enhancing user engagement and interaction on web pages.
- Integrated third-party APIs, such as payment gateways or social media platforms, into PHP applications and web pages, enabling seamless data exchange and extended functionality.
- Ensured cross-browser compatibility by testing and debugging HTML/CSS layouts and JavaScript functionality across multiple browsers and platforms, providing consistent user experience.

Education

Bachelor's of Engineering in Computer Science (2004-2008)

Toc-H Institute of Science and Technology Affiliated to Cochin University of Science and Technology,
India
