2. CC 2.0 AND SHARE POINT
3. BWD@WORK : WHAT HAPPENED SINCE LAST TOWN HALL
PEOPLE UPDATE
4. VALUES AWARDS

TOWN HALL MEETING

9TH NOV 2023

BW DIGITAL

STRICTLY CONFIDENTIAL

□ KEY TRENDS

- ✓ The world situation remains fluid with multiple conflicts and geopolitical tensions
 - Economic factors are unlikely to improve in the short-term
- ✓ Low impact on our industry and company to date
 - Let's continue to manage our business in a cautiously ambitious way - Collectively and individually
- ✓ The AI wave generates massive investments in the digital infrastructure space
 - Transport networks and data hubs will significantly evolve to serve new models (ex: Edge Computing)
 - Lots of opportunities arising - Essential to find the right partner - or become one - to grow successfully
- ✓ Google is moving ahead on the construction of its submarine cable network
 - 2 transpacific cables announced: Tabua and Honomoana
 - This creates risk and opportunity
 - All players, including BW Digital, need to adapt their plans - Agility is key
 - Hawaiki remains very much relevant: demand for capacity grows > 30% per year, customers want diversity, Google cables won't be operational before end 2026, we have the best latency AU-US, etc.

☐ OVERVIEW

- ✓ BAU is never BAU - Let's continue to improve our productivity
- ✓ Transition year - Many changes in the way we do things, especially at corporate level
- ✓ Very productive 11 months - Well done to all

☐ OPERATIONS

- ✓ Ciena and Customer A upgrades completed
- ✓ Network outages: SEA-US + Hawaii - 6 events with customer impact since June
- ✓ Improvement of cyber security on-going

☐ SALES

- ✓ Challenging year - Opportunities with long sales cycle
- ✓ 3 major opportunities in final negotiation
- ✓ Branch to Tonga

❑ UPDATED PLAN

- ✓ Mandatory to adapt to market evolution / demand to make our business case work
- ✓ We have decided to phase the project and give priority to the route with highest potential
- ✓ Focus on the Sydney - Singapore route
 - Segment 1: Sydney - Brisbane - Darwin
 - Segment 2: Darwin - Jakarta - Singapore

❑ NEXT STEPS

- ✓ Project development
 - New system design and RFP documentation completed
 - Finalize procurement process and confirm project costs - Select system supplier in Q1
 - Continue permitting activities, especially in Australia
- ✓ Business development
 - Contract with DFAT for Pacific Islands connectivity - Our first contract with the Australian Gvt
 - Customer contracts are key to enable project funding and system construction - Let's keep pushing!

❑ DATAGRID PROJECT

- ✓ Fantastic job done by the team to explore all the options
- ✓ We could not make it work - regulatory issue (HPL) and challenging BC - and decided to discontinue our efforts on the project
- ✓ BW Digital remains a shareholder of Datagrid parent company
- ✓ Project development now assumed by Remi Galasso, who works independently

❑ DATACENTRE BUSINESS

- ✓ We continue our investigations in ANZ and SEA regions
- ✓ Build & Buy approach
- ✓ Tamás leading the effort

❑ ~30 M&A OPPORTUNITIES STUDIED IN FY23

- ✓ Very good understanding of market dynamics, opportunities, valuation, etc.
- ✓ New ones on the radar but likely for FY24

❑ 1 ACQUISITION CONFIRMED - STILL CONFIDENTIAL AT THIS STAGE

- ✓ 21-acre plot of land in Kapolei, Hawaii - Next to our existing CLS
- ✓ Sale and purchase agreement signed end of October
 - Acquisition to be completed by EOY, subject to satisfactory DD in November
- ✓ Will give us a unique competitive advantage in Hawaii - Key benefits:
 - Expand our landing / hosting capabilities
 - Sell outside plant and colocation services to new international and domestic cables
 - Develop our concept of digital ecosystem: connectivity + storage / compute + sustainable energy

☐ KAPOLEI PLOT OF LAND

QUESTIONS ?

TOWN HALL MEETING

9TH NOV 2023

BW DIGITAL

STRICTLY CONFIDENTIAL

ENDPOINT MANAGEMENT AND SECURITY - ANOOP

- Endpoints are physical devices that connect to a network system such as mobile devices, Laptop/desktop computers, virtual machines, and servers
- 23.5 billion cyberattacks per year and 84% of any attack starts with the endpoint
- Methods Used: Ransomware, Phishing, Social Engineering, Credential Theft

Here's why they are crucial	How we can protect against Attack	Endpoint Central – MDM tool
Protection Against Cyber Threats	End-user awareness training	Daily Vulnerability Scan in all End Points
Data Protection	Privileged access management	Installation of Patches / Software's
Business Continuity	Endpoint detection and response	Push Configurations
Remote Workforce Support	Continues monitoring	Asset Inventory Hardware/Software
Insider Threat Mitigation	Systems and software fully up to date	Mobile Device Management
User Productivity	Endpoint Protection	OS Deployment and Imaging

- Managing systems for day-to-day operations (VPN/Exchange)
- Install, configure, upgrade, maintain and support endpoint system based on customer requests
- Troubleshoot user/system issues and managed day to day account activity
- System patching and meet SLA
- Implementing Cyber Security policy
- Auditing Hardware/Software

✓ WHAT DO WE HAVE:

- Different types: bare mental, rack server, virtual server, cloud servers, etc.
- Different OS: Windows, ESXI, Ubuntu, Redhat, VMWare, HPE, etc.
- Different locations: Auckland, Sydney, Hillsboro, Hawaii, Mangawhai, Pacific City
- Different purposes: Office365, Password Manager, VPN, DUO, Proxy, File Sharing, Nas Storing, Database backup, Radius authentication, etc.

✓ WHAT DO WE DO:

- Monitor & Troubleshoot: tools like Rapid7, Forticlient, HexnodeMDM, FortiAnalyzer, OpenNMS, etc.
- Maintain & Harden: weekly review, security update, audit report check, hardware update, services update, etc.
- Backup & DR Prepare: all critical servers will be backup into different location (Sydney, Hillsboro, Cloud) and in different format (Virtual, Hard disk), plan and test for Disaster Recovery every 6 months
- Learn & Test: try new technologies, new automation, new open-source, etc.

❑ IT CORE NETWORK – BUILD ON MPLS TECHNOLOGY FOR ROUTE REDUNDANCY.

- Connects intra-office network for Engineering, CLS, and NOC Operations.
- Wired and Wireless network – for Office connectivity

❑ CYBER SECURITY – IS KEY FOCUS | CYBER MATURITY ON PROGRESS

- Integrity - Protecting Data in-rest, in-transit, and in-process
- Availability – Fault Tolerance, Disaster Recovery
- Confidentiality – Protect Unauthorized access, Email Security

❑ IT PERIMETER SECURITY USING FORIGATE SOLUTIONS

- WEB FILTERING
- APPLICATION CONTROL
- CONTENT INSPECTION and
- VIRTUAL PRIVATE NETWORK (VPN)

❑ SECURITY INFORMATION AND EVENTS MONITORING (SIEM) HAS BEEN DEPLOYED

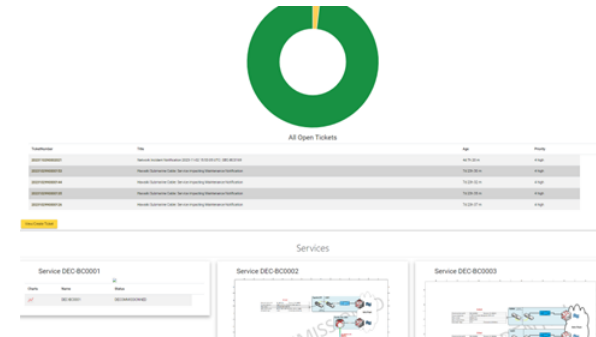

❑ SECURITY AWARENESS CAMPAIGN AND PHISHING EMAIL EXERCISES

❑ DATA CLASSIFICATION AND DATA LOSS PREVENTION IS BEEN DEPLOYED

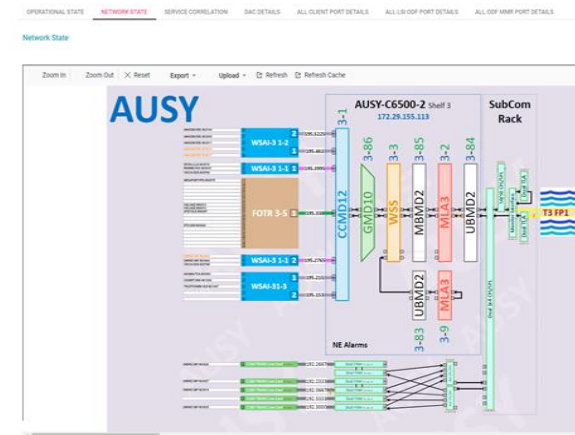

❑ ZERO TRUST NETWORK ACCESS – TO IMPROVE USER EXPERIENCE AND STRENGTHEN REMOTE ACCESS WITH ZERO-TRUST APPROACH

IT DEV – HOME GROWN TOOLS

- ✓ Web based portal for Customers to
 - Self Service – Create and visualize tickets
 - Visualize their network connectivity with BW-Digital through Network Diagram
 - Integration with our Stats Portal to visualize different performance metrics (PM's)

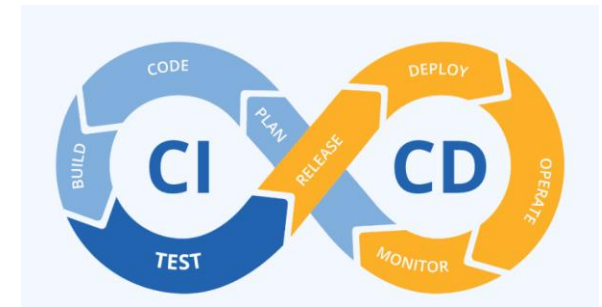

- ✓ Build to serve our specific needs to manage and provision our Network Inventory
- ✓ Additional capacities include -
 - Visualize End to End Network Connectivity
 - Capacity Management, Backhaul and Offnet Services management
 - Provision services
 - Visualize alarms on different network elements, ports in real time
 - Create Bulk tickets

IT DEV – EVOLUTION

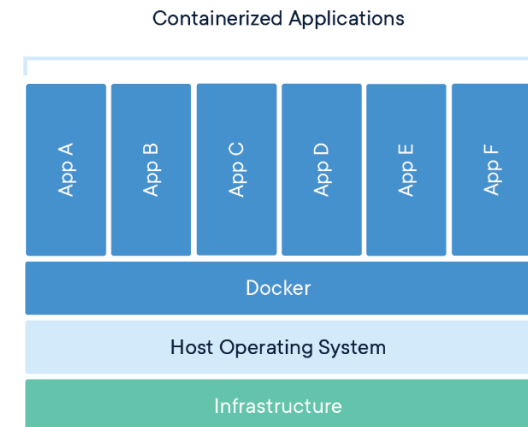

❑ Continuous Integration/Continuous Deployment (CI/CD)

- ✓ Focus on Automation to build and deploy code
 - Remove manual tasks and improve productivity
 - Faster delivery
 - Secure deployment

❑ Containers

- ✓ Focus on migrating IT services to containers
 - Reduce the server count & upgrade costs
 - Portability, Efficiency & Speed

❑ STATS PORTAL

- ✓ BI Based Visualization tool to gather insights on -
 - **NETWORK SIDE** – PM , Q FACTORS , BANDWIDTH UTILIZATION MONITORING
 - **TICKETING SIDE** – TICKET SYSTEM ANALYTICS
 - **SERVICE SIDE** – SERVICE AVAILABILITY, SERVICE EVENTS, SEGMENT , ROUTE LEVEL AVAILABILITY
 - **SOME NUMBERS** –
 - MORE THAN 30 UNIQUE DASHBOARDS FOR VISUALIZATIONS AND REPORTS.
 - GETTING 11-12 MILLION DATA POINTS EVERYDAY. MORE THAN 4B DATA POINTS A YEAR.

South to North Maximum Link Utilization

Ticket Type Classification

Tickets Created percentage

Maintainence	1584	28.11%
Incident External	1483	26.32%
Incident	762	13.52%
Hazardous Condition	735	13.04%
Problem	662	11.75%
Request Fulfilment	212	3.76%
ServiceRequest	143	2.54%
Change Request	54	0.96%

❑ ALERTS & NOTIFICATIONS

- ✓ **REAL-TIME ALERTS** – SENDING UP-TO-DATE EMAIL NOTIFICATIONS EVERY MINUTE TO UPDATE AND NOTIFY NOC AND OTHER OPERATIONS TEAMS, IN CASE OF FAULTS.
- ✓ **DAILY INSIGHTS AND REPORTS** – DAILY REPORTS TO PROVIDE A COMPLETE SUMMARY OF SYSTEMS FOR THE PREVIOUS DAY.

❑ Testing / Quality Assurance

- ✓ Software testing is a process of evaluating and verifying what the application does and what it is supposed to do.
- ✓ Types
 - Manual
 - Automation
- ✓ Why Automation Testing
 - To reduce testing cost and time
 - To reduce redundancy
 - To speed up the testing process
 - To help improve the quality
 - To improve test coverage
 - To reduce manual Intervention

7 March 2023

Dear ICS

Thank you so much for your recent donation of \$2,050.00. You have really helped to make a difference.

Please know that your generosity helps us support communities affected by severe weather events happening now and prepare for future emergencies and disasters!

I thought you would like to know that, thanks to you, New Zealand Red Cross teams are deployed across the country right now, providing urgently-needed assistance to those affected by the devastating impacts of Cyclone Gabrielle and the ongoing impacts of the Tāmaki Makaurau Auckland flooding.

On behalf of those who will receive the immediate support they need because of your

LEGO BRICKS

QUIZ TIME : WHOSE KID IS THAT ?

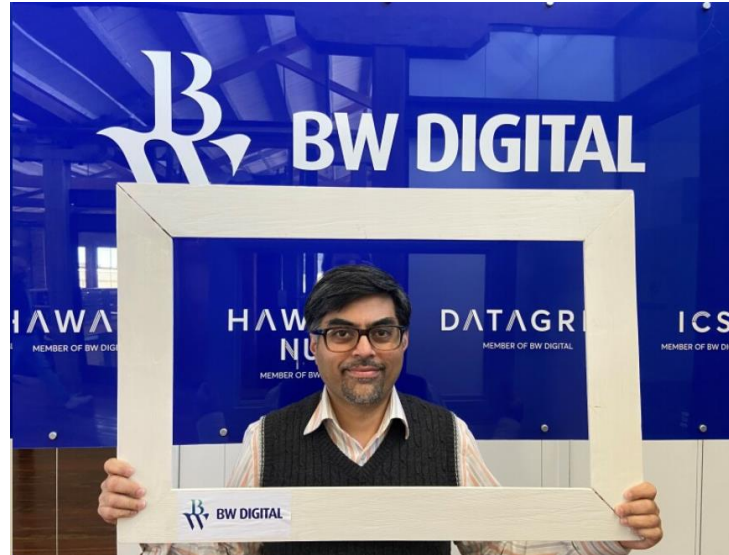

WELCOME TO

- ❑ FAISAL
- ❑ MAMTHA
- ❑ ROBIN

FAREWELL TO

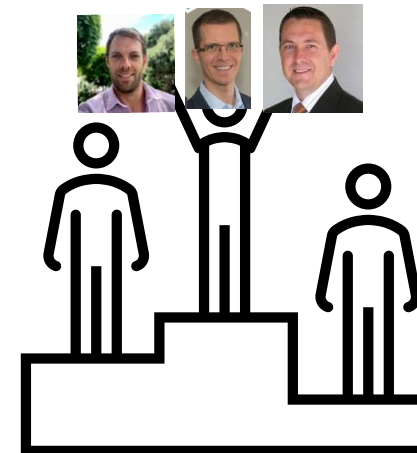

- ❑ NATALIA

THE NOMINEES

- Vel
- Janice, for her ability to notice even the smallest details
- John Bradfield - for consistently challenging operational performance and identifying areas for procedural improvement
- Justin
- Thasa Balasubramaniam - for displaying leadership to resolve a critical customer circuit issue, out of hours and outside Hawaiki demarcation
- **Anaël**
- Graham Bruce :-is consistently available and sets a leading example in the area of quality
- **Pierre** - always delivers high quality on time.
- **Pierre** Emmanuel - I've found Pierre very well organised and see him go extra mile in every bit to ensure the pricing we are providing is both competitive yet we have a reasonable margin. I see quality in each bit of his work.
- **Anael**, plan and manage 2 teams well
- **David** Slessor! He always pays attention to details.
- **Dave** Slessor for his thorough attention to all details and ensuring a high standard job is performed consistently
- Mohan - for taking on such a critical role and taking the extra effort in preparation for important tasks
- Sheryl - attention to detail
- Peter Tran - Unto the mark on what he does
- Margaux - for putting details in depth on sharepoint architect revamp
- Farhan / Carefully prepare activities & answer promptly to NOC requests.

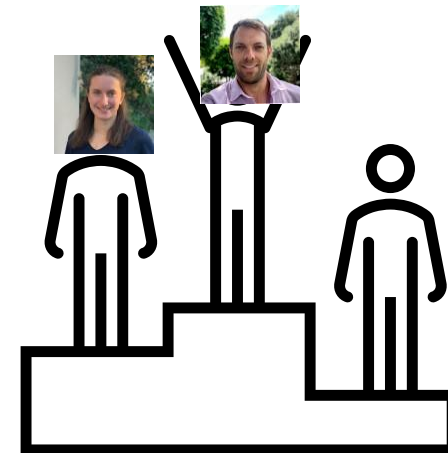

THE WINNERS

THE NOMINEES

- Anael
- Anael, for making happen the new expense claim system
- Anaël Greiveldinger - for working assiduously to implement a range of IT tools to improve and enhance or operational capability
- Anael
- Anael - changing to sharepoint from boxcryptor
- Margaux Faurie - for taking our Career Conversation templates to the next level... cleaner, clearer, easier.
- Margaux
- Akshat Tandon:- Always listens and offers innovative solutions to meet requirements
- Thasa - agile and will suggest pro-actively solutions that benefit BWD & customers
- Pierre Emmanuel - Nominating Pierre again for this value. He proactively use market available tools to check whether we need to adjust our pricing and is adaptive to the change.
- Vel, adapt and learn new things to protect our company
- Virginie (of course!)
- Anael for living and breathing it :-)
- Farhan - for introducing past experiences and new idea's in to Engineering team
- Aditya - quietly introducing improvements to our service performance monitoring tools
- Anaël Greiveldinger - Implement new tools to increase productivity and seamless function
- Anael - for brining in Broadroom Teams meeting display unit by increased user experience when booking meeting room in Parnell office.
- Anael / Introduce new tools to simplify work life of employees.

THE WINNERS

THE NOMINEES

- Marie
- Justin, for leading / contributing to 2 L&L and enhancing peer learning
- Thasa- for leading as Incident Manager the collaboration of multiple departments to respond to a recent outage of multiple customer services
- Thasa
- Vel Sellakannu - for collaboratively working together with NOC, CLS and Engineering to resolve on-net comms issues arising from POP power outage
- Marie
- NOC team :- Plays a pivotal role as a collaborator, fostering strong partnerships with both our customers and internal teams.
- Dave - strikes a great balance between all aspects involved with selling, buying and delivery
- Hamid Maani - Hamid is a true leader. He communicates with the team in an effective manner. We have a weekly team meeting; he ensures every team member gets a change to speak and provide any specific feedback. He promotes collaboration and empowers his team.
- Graham, always give good decision, help and support
- Virginie (of course!)
- Pierre-Emmanuel for being so engaging
- Justin - for being the new anchor man holding down his new TL role and collaborating across the various Operational teams
- Thasa - always keen to get stuck in and resolve potential customer service affecting issues
- Velmurugan Sellakannu - Any issue he will bring team together and discuss
- Justin - who helped for smooth transition while off-boarding SIEM tool monitoring from IT team to NOC

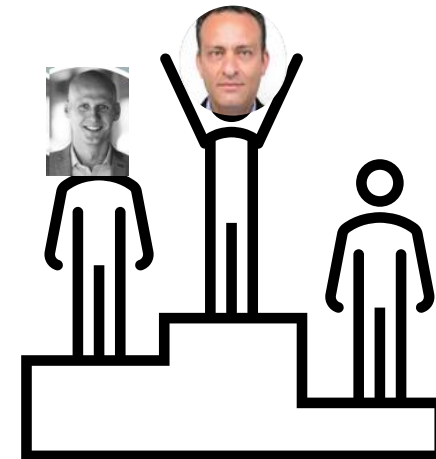

THE WINNERS

THE NOMINEES

- Hamid
- Margaux, for diligently gathering everybody need on the new tools to maximize satisfaction
- Eugene Harris - for keeping a calm head and remaining focused on keeping customers notified and informed during a high stress outage event
- Akshat
- Hamid - work on DG/Nui
- Peter Tran - for focusing as a priority on the restoration of on-net comms, at the expense of other IT projects, due to the criticality assigned by internal customers
- Pierre-Emmanuel
- Christian Alvaro:- demonstrates this on a daily basis to help resolve customer issues and keeping them informed .
- Hamid - is across all our customers, aware of their needs and creative to overcome hurdles.
- Stefan Zaal & Gina Bohrer - I've found both Stefan and Gina are quite customer centric. They both genuinely care about their customers are true customer advocates. I dont have a specific eample to quote here but I've observed that they proactively anticipate customer needs and keep the bidding team on the foot to provide the pricing in a timely manner
- I dont know
- Virginie (of course!)
- John Bradfield for his devotion to customer requests no matter how small or big they may be
- NOC Team - diligently and proactively following up with external customer communications and internal updates provided to the business
- Stefan - always puts the customer first
- Marie Leclerc - She know what we need and provide it
- Graham, always put customer centricity focus when reviewing CAB request , which make sure any changes on the network is well scrutinize to make sure maintenance doesn't cause any unplanned outage.
- Farhan / Carefully prepare activities & answer promptly to NOC requests.

THE WINNERS

THANK YOU

BW DIGITAL
